

15 October 2012

**TO: All ITC-SA Members**

**National Communiqué No 014**

Dear All,

It is always good to be recognized, and for major industry role players to request the ITC-SA to participate on Industry Committees where decisions are taken that impacts our operational environment. These invitations imply that we are recognized for the skills that we as members of the ITC-SA possess and that our participation is considered imperative to the management and development of the built environment.

Recently, ITC-SA was requested by the Engineering Council of South Africa to nominate ITC-SA Members to participate on four forums where the interests of the engineering professionals will be discussed and decided upon (see attachments). The four forums are:

1. Engineering Program Accreditation Committee
2. Technology Program Accreditation Committee
3. ECSA Investigation Committee
4. ECSA Fees Committee

After due consideration, the following people were identified as meeting the Committee Membership and ITC-SA criteria, and their names were forwarded to the Engineering Council of South Africa.

- Mr Roly Adams will be representing the ITC-SA on the Engineering Accreditation Program as well as the ECSA Investigation Committee;
- Mr Neville Lawrence will be representing the ITC-SA on the Technology Program Accreditation Committee;
- Mr Errol Hobden will be representing the ITC-SA on the ECSA Fees Committee.

As the ITC-SA we want to congratulate the Roly, Neville, and Errol with their selection to represent the ITC-SA and we know that they will make us proud! As the ITC-SA we pledge our full support to the newly elected representatives.

Kind Regards

*Fred Wagenaar*

Executive Officer (ITC-SA)
