01 October 2012

Dear Mr Wagenaar

Nominations to the Engineering Council of South Africa (ECSA).

The Deputy Minister of Public Works, Mr Jeremy Cronin, on behalf of the Honorable Minister Thembelani Thulas Nxesi, recently inaugurated the new ECSA Council on 5 July 2012 for a period of four years.

In terms of the provisions of ECSA's Operating Procedures for Committees of Council, ECSA is required to re-constitute all of its Committees, in line with the new term of Council.

Consequently, ECSA requests the ITC to nominate one member each to serve on the **Engineering Programme Accreditation Committee (EPAC)** and the **Technology Programme Accreditation Committee (TPAC)**. The nominees must preferably be registered professionals in the relevant category, who could serve for the new term ending approximately July 2016.

ECSCA places a high premium on sustainability and representivity of its committees. To this end, when finalizing the nominees for the EPAC and the TPAC, we appeal for consideration to balanced representivity in terms of race and gender.

I kindly request that the nominations be submitted by 15 October 2012 to me, in order to ensure the continuity of the committee work.

On behalf of the President and CEO of ECSA, I wish to thank all members for their sterling contribution to the Engineering Profession and ECSA over the last term.

Yours faithfully

Dr F Goolam
