CERTIFIED ROOFING AND WATERPROOFING SPECIALIST

ABOUT JEROMÉ:

Jerome' O'Ryan is an independent consultant, registered assessor, accredited training facilitator engaged in the following:

He is a founding member of the Roofing & Waterproofing Institute, where he actively serves on the executive committee as training portfolio chairperson and is engaged in the following:

- Skills development for the waterproofing and roofing industry in collaboration with Northlink College and other industry partners.
- Provision of specifications for remedial repairs to properties and quality assessment thereof.
- Facilitation of tender procedures and compilation of tender documents.
- Skills Proofing, Roofing & Waterproofing Application

SUMMARY

We have designed this course after taking 1000 delegates through skills training workshops that includes the Ceta ratio namely 30 % theory and 70% practical.

The skills certificate course identifies and recognises the applicators strengths and weaknesses and derives a recommendation for further development.

We therefore believe every applicator, contractor , architect and client deserves the right to know the skills level of the individual working on his property hence the content of this course was derived to add value to every waterproofing project by formally indentifying the applicator skills by attending this course.

ETDP Accredited Practitioner
Accreditation Number: 7177

Creative Consulting 

SOUTH AFRICAN QUALIFICATIONS AUTHORITY (SAQA) WATERPROOFING
Task team membership facilitated by Creative Consulting
