Congratulations to all the above students and thank you for taking the time and effort in completing the course.

We would like to encourage ALL designers to enroll for the course starting in July 2017 and to proudly display the certificate awarded after successful completion <http://itc-sa.org/designer-programme/>

Kind Regards

Amanda Olber

National Coordinator

Testimonials:

Suzanne Smit:

"As a new comer in the roof industry I was, to say the least, terrified of the course. But to my surprize I found the course content easily understandable and informative. The material in this course set a good foundation that can be applied practically. I definitively recommend this course highly, even for people who have been in the trade for a while, because it takes you back to basics."

Faghan Pocsi:

"I found this course particularly challenging because of the self-study nature of the course. However, the course notes were helpful in my study and in preparation for my exam. I really enjoyed this course because of the challenge and the reward thereof. I have no doubt that the intermediate course will be just as fun. Thank you so much for this opportunity. This course will be a great building block in my career and thank you for all your support."

Zama Nkosi:

"The course is really helpful and I learned a lot, especially the calculations it's a refresher for someone who finished school long ago. I really enjoyed it."

La Rochelle du Preez:

"The course was very insightful and interesting. I am looking forward to the Intermediate Course"
